_____	)	

**O R D E R**

Applicant David Matthew Bradford filed a petition for review challenging the Committee on Character and Fitness' denial of his application for admission on motion because the "application does not reflect the required five years of licensure pursuant to Supreme Court Rule 34(f)." Contrary to the Committee's finding, the language of the rule does not specify a length of time for licensure. Rather, it specifies a time-in-practice requirement. Accordingly,

**IT IS ORDERED** granting the petition for review. The matter is remanded to the Committee for its consideration of the application consistent with this order.

DATED this 5<sup>th</sup> day of February, 2019.
